# Reyhan Al-katiri

## My Details

**Mobile:** 0291221484

**Email:** Reyhan2498@gmail.com

**Visa Status:** NZ Citizen

**LinkedIn:** <https://www.linkedin.com/in/reghan-al-katiri/>

**Portfolio:** <https://reyhan2498.github.io/index.html>

## Profile

I am a Computer Science graduate with hands-on experience in full-stack development through internships in Auckland. I enjoy building practical software solutions and solving real problems using both front-end and back-end technologies. I'm confident working with JavaScript, React/Next.js, Node.js, SQL, and modern development tools, and I'm always eager to learn new technologies. Personally, I'm curious, adaptable, and motivated to improve my technical and professional skills continually.

## EDUCATION

**Auckland University of Technology, Auckland** - *Bachelor of Computer & Information Science*

June 2019 - August 2023

Majoring in Software Development, Minor: Web Development. Relevant Coursework: Full Stack Web Development, Database Design, Software Engineering Principles, Agile Methodologies Key Projects: Developed a 2D multiplayer platformer game (SHARC\_Runners), a decision support app (SEPER-APP), and various web applications using Java, Next.js, and Tailwind CSS.

Awards/Recognition: Recognized for innovative approach in web development projects and excellence in collaborative teamwork.

## TECHNICAL SUMMARY

Skill	Experience (Years)
JavaScript	2+ years
React / Next.js	2 years
Node.js	2 year
PHP	1 year
SQL (MySQL / SQL Server)	2 years
HTML / CSS / Tailwind	2 years
REST APIs	1-2 years
Git / GitHub	2+ years
Blue Prism (RPA)	Project experience

---

## EXPERIENCE

### Freelance Software Developer, Auckland - *DevForge*

March 2025 - December 2025

DevForge is my freelance development service where I work with individuals to build apps and web applications.

**Role purpose:** Design and develop modern, responsive web applications for clients from concept to deployment.

**Responsibilities:** I built frontend interfaces using React / Next.js and Tailwind CSS. I also developed a mobile app using Flutter.

**Achievements:**

- Delivered complete projects independently, from planning to production
- Improved client website performance and user experience

**Toolsets:** JavaScript, React, HTML, Flutter, GitHub, SwiperJS, Tailwind CSS

### Full Stack Developer Intern, Auckland - *System 7*

November 2024 - February 2025

System 7 is a web development and digital solutions company delivering custom business applications for clients across different industries in New Zealand.

**Role purpose:** I supported the design and development of full-stack web applications.

**Responsibilities:** My role included planning and designing front-end interfaces by creating wireframes and mapping user journeys. I developed responsive user interfaces using modern JavaScript frameworks and styling tools. On the back-end, I built and maintained server-side logic, integrated APIs, and ensured databases were structured efficiently.

**Achievements:**

- Successfully delivered production-ready features within tight project deadlines
- Improved application reliability by resolving front-end and back-end integration issues
- Contributed to scalable system improvements that supported growing

---

client usage

**Toolsets:** JavaScript, React, Next.js, Node.js, SQL, REST APIs, Git.

### **Full Stack Developer Intern, Remote** - *MegaBliss & MegaTransact LTD*

November 2023 - April 2024

MegaBliss & MegaTransact are digital-focused companies providing online platforms and payment-related services. The company focuses on improving customer experience and online performance through modern web technologies.

**Role purpose:** I supported the development and optimisation of web applications, improving performance, usability, and system reliability for business users.

**Responsibilities:** I integrated front-end components with backend services to ensure smooth communication between systems. I worked with APIs and databases to handle data efficiently and reduce load times. I also identified and resolved UI/UX issues to enhance customer engagement.

**Achievements:**

- Improved website performance by 40%
- Reduced page load times by 25%
- Helped decrease bounce rate by 20% through UX improvements

**Toolsets:** Next.js, React, JavaScript, Tailwind CSS, Chakra UI, REST APIs, SQL, Git

### **Robotic Process Automation Intern, Auckland** - *Auckland District Health Board*

January 2022 - October 2022

ADHB is one of New Zealand's largest public healthcare providers, supporting hospitals and healthcare services across Auckland.

**Role purpose:** I assisted in developing robotic process automation solutions to streamline repetitive administrative tasks within healthcare systems.

**Responsibilities:** I worked with Blue Prism to design and implement automation workflows. I analysed manual business processes and identified areas suitable for automation. I collaborated with stakeholders to gather requirements and test automation solutions. I ensured bots ran reliably and handled exceptions correctly.

---

**Achievements:**

- Helped reduce manual administrative workload through automation
- Improved process efficiency and reduced human error

**Toolsets:** Blue Prism, SQL, Process Mapping, Documentation, Testing

**Restaurant Worker, Auckland** - *Des Traditions*

September 2022 - March 2023

Des Tradition is a busy restaurant providing dine-in and takeaway services.

**Role purpose:** Support daily restaurant operations by assisting customers and maintaining a clean, efficient service environment.

**Responsibilities:**

- Took customer orders accurately and handled payments
- Cleaned dishes and maintained kitchen cleanliness
- Assisted the team during busy service hours
- Ensured high standards of hygiene and customer service

**Achievements:**

- Worked effectively under pressure during peak hours
- Maintained positive customer interactions

**Certificates**

**AMES The Institute of IT, Auckland** - *Certificate in SQL Server Implementation and Support*

December 2016 - February 2017

Hands-on training in SQL Server installation, configuration, database management, query optimization, and troubleshooting.
